TRADE CATALOGUE 2023 - 2024

Factory Valsad (Gujarat)

We are the Indian operation of Pentel Co. Ltd., a privately owned, Japanese company, which has been producing some of the world's favourite writing instruments since 1946 and in India since 1999.

Our mission is to "create the tools that enable people everywhere to give form to their inner thoughts and feelings, and to cultivate the joy of expressing themselves."

From our office in Mumbai, Maharashtra and our factory in Valsad, Gujarat, we manufacture and distribute a wide range of pens, mechanical pencils, correction products, markers and art materials throughout India.

We have supplied the world with the highest quality writing and art products for decades. We are a leader in innovation with a commitment to excellence. We're proud that Pentel has been responsible for developing ideas behind two-thirds of the writing instruments in use worldwide today.

From the first acrylic fibre-tipped pen to no fewer than 25 shades of pigment gel ink, our goal is to create products that make all forms of written and artistic communication not only effective but inspiring.

ISO certificate for domestic and overseas productions sites

JAPAN production sites

1952: Soka Factory received a permit for displaying the JIS mark on paints and crayons for the first time in Japan

1976: Received the Deming Prize

Our Yoshikawa, Ibaraki and Soka Factories have received a certification of ISO 14001 (Environmental Management System) respectively.

Recycology Products

Pentel is committed to developing and providing environmentally safe and useful products. Our Pentel Recycology Products are made from a minimum of 50% recycled materials by weight and are designed to reduce manufacturing impact on the environment.

Our Recycology Program focuses on ways to reduce environmental waste through innovative product design and the use of raw materials involved in production. Many of our products are refillable to further lessen the environmental impact. Our eco-friendly products provide a small, yet powerful way to ensure a safer future.

Recycology Content % = Weight of recycled contents / Total weight of product

Recycology: Made from a minimum of 50% recycled materials by weight excluding consumable content and refills.

At Pentel we pride ourselves on quality, innovation and reliability, and this is reflected throughout our entire range of products. In the following pages you will find all your favourites, together with the new and exciting products, giving you the performance you expect from Pentel.

Throughout our fantastic range of products, from the EnerGel with quick-drying, smudge-free, and vivid colours, to the colourful and convenient Pentel Arts collection, there's something to inspire everyone to be creative.

In addition, our Recycology range reflects our commitment to manufacturing products that are better for the environment.

ENERGEL INK *inside*

CONCEPT

ENERGEL, SPREAD THE WORLD OF CONFIDENCE!

Smooth, quick dry, vivid colour

Energel Ink

Energel ink was developed to satisfy consumer demands for a new writing sensation that is much smoother and much easier to use.

Our target for developing the new ink was to achieve a smoother writing sensation and faster drying ink than ever before.

The low viscosity ink with vivid colours is ultra smooth and ultra fast drying.

Thanks to Energel ink, you will be surprised at the amazing writing feel and you will notice that your hand is clean from ink smudges.

The Concept of "ENERGEL INK inside"

Energel, with its unsurpassed ink performance is the product of choice to promote. Not only does Energel look great, it also has a unique ink performance that is the core identity of Energel. Energel ink is the identity of Energel and this should be communicated simply and clearly to encourage consumer awareness of Energel. "ENERGEL INK inside" is the logo that will simply project images such as "novel", "reliable" and "more comfortable" to use. By emphasizing this message through a simple logo, we will emulate to the consumer an image of ultrasmooth and ultra fast drying ink that is super high quality only available from Pentel Energel. This will be a show of confidence to the consumer and enhance the marketability of Energel.

Multi 8 for checking use

Mechanical Pencil

PH802ST

- Multi holder mechanical pencil with 8 coloured pencils in 1.
- Clear window on the side allows you to check the clip to fit what you want. Knock it and it may come out too much.
- It will disappear when copied (black ink), so it can be used for pre-drawing.
- **Used for checking, sketching & drawing.**

Turn the top knob so that the silver line is aligned with the black plastic arrow on top of the clip.

Press the top button to completely release the lead.

After refilling the lead, turn the top knob again until the silver line is not aligned with the black plastic arrow.

Now the lead holder will catch the lead at the metal end.

SUPER MULTI

WRITING FUNCTION

orenznero

Mechanical Pencil

PP3003-A, PP3005-A

- As you write, the lead sleeve retracts as the lead wears down.
- An automatic lead advancement system extends the lead every time you lift the pencil from the page.
- Once the pencil is writing, you never have to click the top button again until the lead runs out!
- A special resin-metal blend gives the Nero a reassuringly sturdy feel and a comfortable weight that is neither too heavy nor too light.

M.R.P. - Rs.3259.00 Per Pc (Incl. of all taxes)

STORY

Be the owner of **ORENZNERO** the ultimate mechanical pencil.

Mechanical pencil set to revolutionise writing!

Pentel produced the world's first retractable pencil in 1960 and has been taking full advantage of our technologies to develop the ultimate mechanical pencil.

After decades of research and development, we now have the ORENZNERO.

A mechanical pencil that comes with not only the Orenz function, but a technological breakthrough of "Auto-lead-forwarding" system.

Pentel

CB9

- Pre-sharpened woodcased watercolour pencils.
- Brilliant colours apply smoothly and blend easily for subtle shades, tint and colour mixtures.
- Non-roll hexagonal barrel shape.
- Lead is glued to wood making it strong and break resistant.
- Works best on most paper surfaces, including cotton and wood.
- Apply a wet brush over the drawing to blend colours beautifully and create watercolour-like effects.
